FROM A 9-5 TO FULL-TIME CREATOR

0 to £20K months.

How I quit my 9-5, built a following, and turned my phone into a full-time income — and how you can start doing the same, even on the side.

Your free playbook — read this first ↓

MY STORY

Two years ago, I was clocking in.

I was in a **9-5**, counting down to Friday, wondering if that was really it. No plan B. No savings to speak of. Just a phone and a feeling that I was built for more.

I didn't win the lottery. I didn't know anyone. I learned how to turn a phone and an idea into an income — and I wrote down every step.

Today I run my own brand, get paid by companies I used to admire, travel when I want, and I bought my **dream car outright — in cash**. This little guide is the honest version of how it happened, and how you can start too.

— Louise

THE RECEIPTS

The numbers don't lie.

£0 → £20k

Monthly income on TikTok

18.3M

Likes on a single post

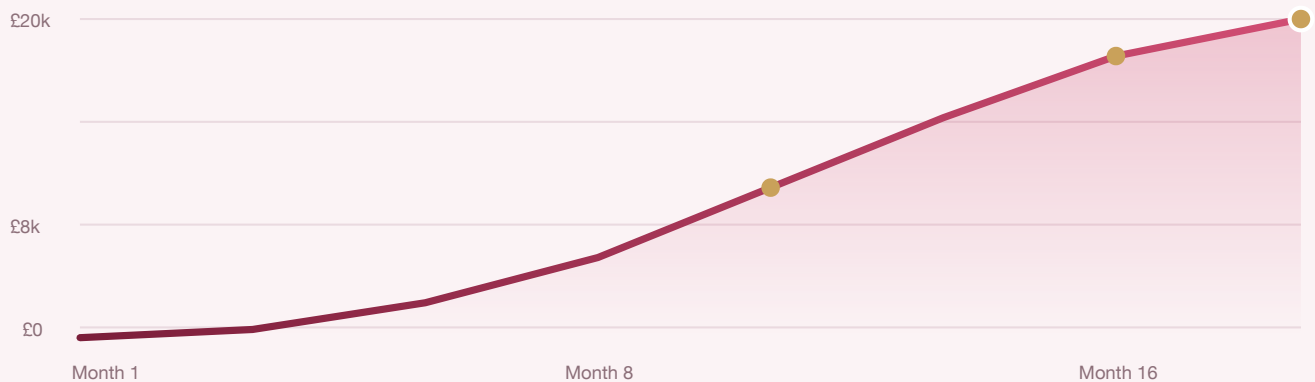

Full-time

From a 9–5 to creator

Anywhere

Work from your phone

HOW THE INCOME GREW

1

Posted my first video — £0, terrified

No following, no clue. I just started, badly, and kept going.

2

First video went viral → first brand deal

One post changed everything. A brand paid me more than a week's wages.

3

Hit my first £5k month — then quit the 9–5

Scary decision. Best one I ever made.

4

£20k months + running socials for companies

Creating for myself and getting paid to grow other brands too.

THREE WAYS TO GET PAID

Pick your lane. Or run all three.

You don't need to be famous. You need a skill people pay for — and I'll show you three that changed my life.

Content Creator

Get paid to post. Brand deals, TikTok, UGC, affiliate — turn attention into income.

£500–£10k / deal

Social Media Manager

Run socials for businesses that don't have the time. Retainer clients, every month.

£1k–£3k / client / mo

Your Own Business

Products, digital downloads, your own agency or brand. Build an asset that's yours.

Unlimited upside

There is no salary cap on the internet.

In a job, your income is set by someone else. Here, your income is a decision — you can start on the side tonight and scale it as far as you're willing to go.

Be your own boss

No permission needed

Do it on the side

Keep your job while you build

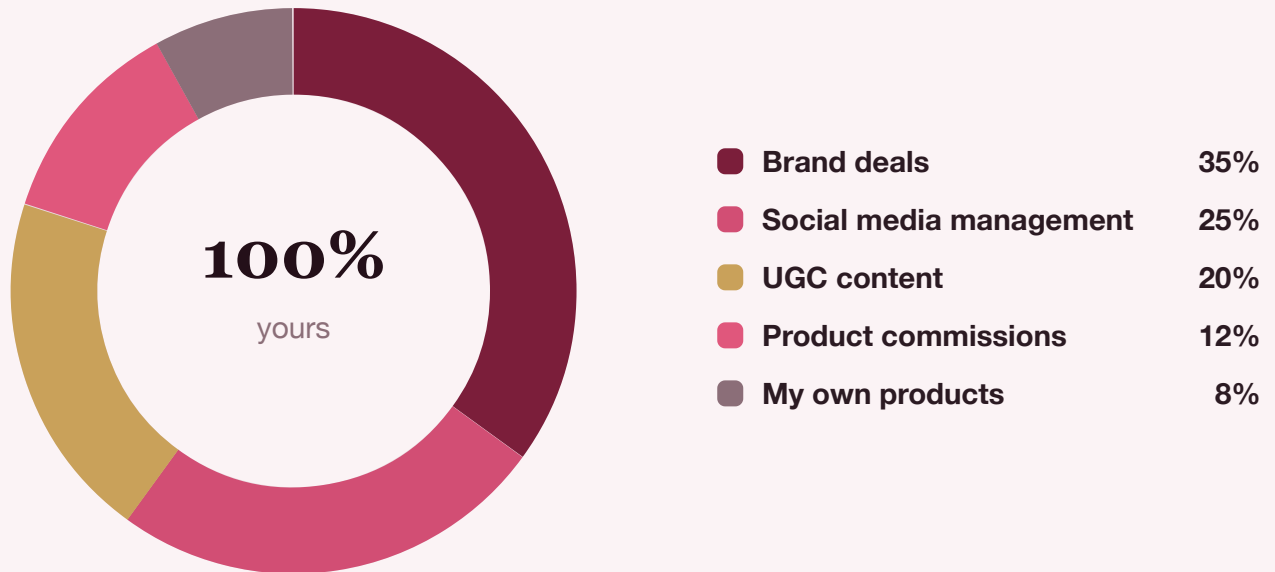

Work from anywhere

All you need is your phone

NEVER RELY ON ONE PAYDAY

Five income streams, one phone.

Brand deals

Companies pay you to feature them — one post can be a month's wages.

Social media management

Run accounts for local businesses on a monthly retainer — recurring income.

UGC & commissions

Make content for brands, and earn a cut every time your link sells.

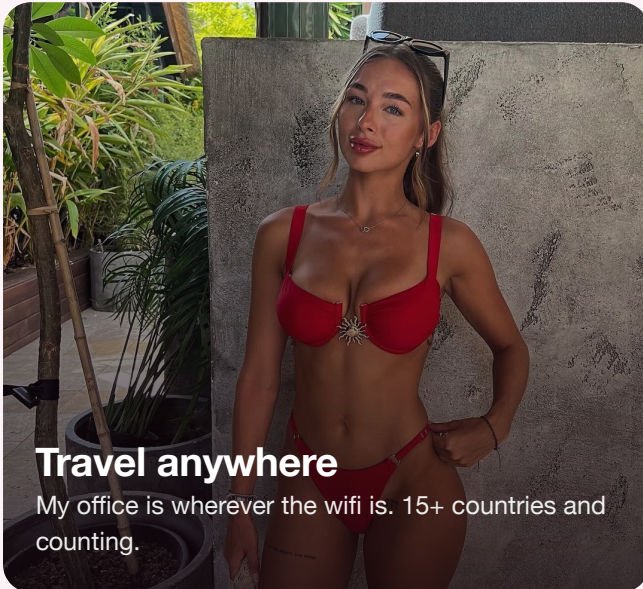

Your own products

Digital guides, presets, merch — you keep (almost) all of it.

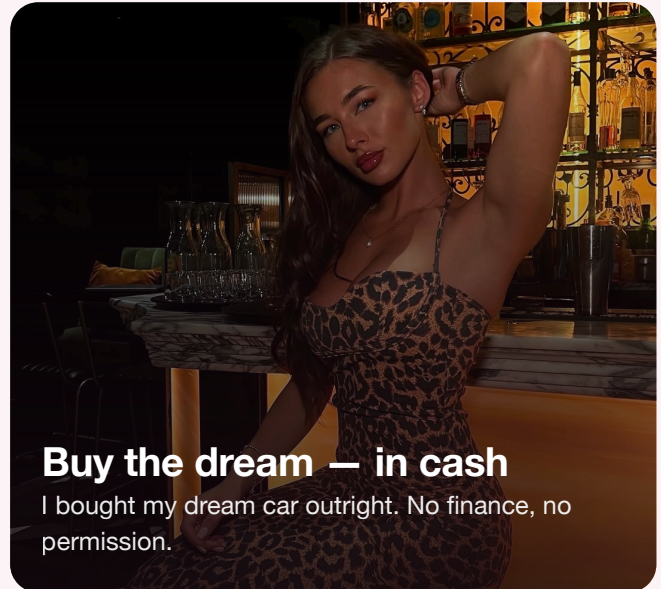

WHY I'LL NEVER GO BACK

This isn't about money. It's about freedom.

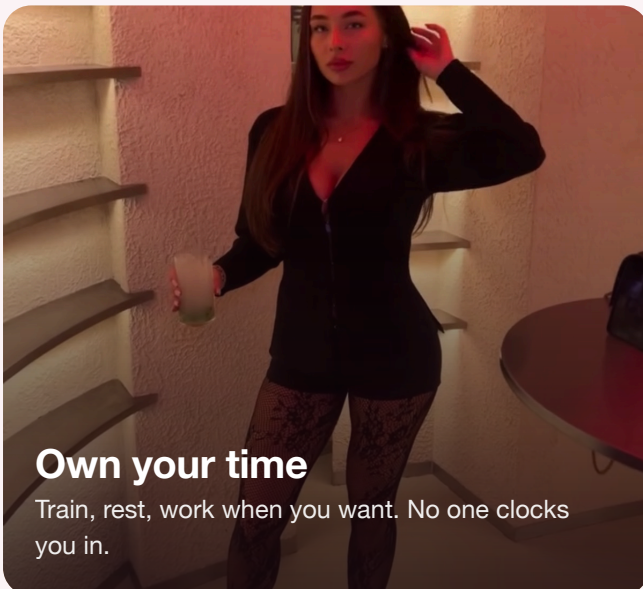

Travel anywhere

My office is wherever the wifi is. 15+ countries and counting.

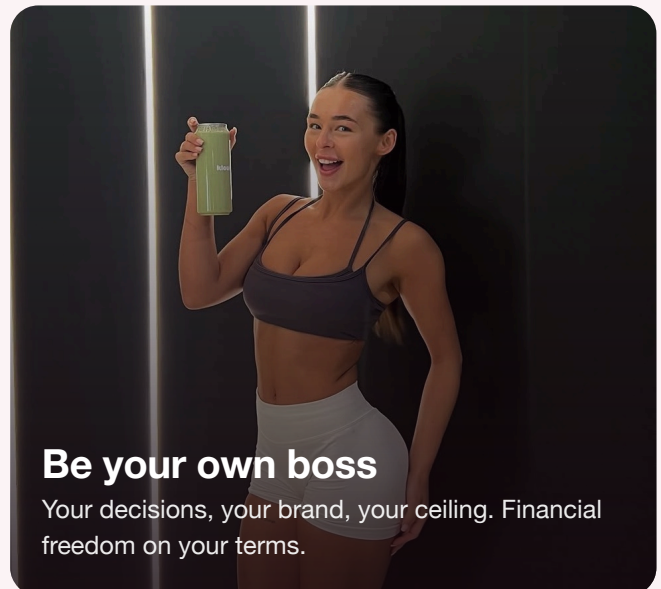

Buy the dream — in cash

I bought my dream car outright. No finance, no permission.

Own your time

Train, rest, work when you want. No one clocks you in.

Be your own boss

Your decisions, your brand, your ceiling. Financial freedom on your terms.

You can start tonight — around your job.

Most people who work with me begin on the side, with the phone already in their hand. You don't quit anything until the numbers say you can.

THE FIVE STEPS

How to actually begin.

1

Pick your niche & your lane

Choose what you'll post about and how you'll earn — creator, manager, or both. Clarity beats talent.

2

Post with a system, not by mood

Hooks, formats and a simple weekly plan. Consistency is the whole game — the system does the heavy lifting.

3

Grow your audience

Learn what makes people stop scrolling. One video can change your life — I've seen 18.3M likes on a single post.

4

Monetise — early

Land your first brand deal or client. You don't need millions of followers to get paid; you need the right approach.

5

Scale to full-time

Stack your income streams, raise your rates, and replace your 9–5 on your terms.
