

THE BUILD

We'd build you a business — not a brand deal.

One brand. One app. Built and funded by us, with you as the face. A community, an academy and your own model agency — all under "Signed to Liam." Here's the idea, the money, and the deal.

THE PROBLEM NO ONE TELLS YOU ABOUT

You're renting 900K. Let's own it.

Right now your income is brand deals and appearances — **one-off, one payment, then gone**. And reality-TV reach fades if you're not careful. You've built an audience most brands would kill for. The move now is to turn it into something **you own that pays you every month**, whether you post that day or not.

PEOPLE WHO ALREADY FOLLOW YOU

One-off

WHAT A BRAND DEAL PAYS — ONCE

Recurring

WHAT A PLATFORM PAYS — MONTHLY

The shift: stop selling your audience to brands one post at a time. Point that audience at something with your name on it — and get paid on repeat.

A brand deal pays you once.
A business pays you **every month**.

THE IDEA

"Signed to Liam."
One app. Three layers.

Not three products — **one branded app, one login**, where each part feeds the next.
People come for you, stay for the community, learn to grow, and get booked.

LAYER 1

Community & chat

A paid members' community with group chat, exclusive content and direct access to you — the Patreon-style engine that pays monthly.

LAYER 2

The Room

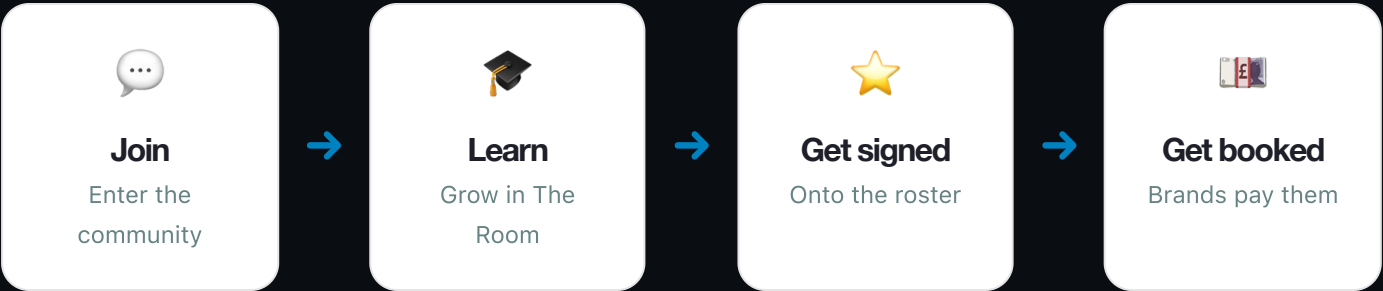

An academy that teaches members how to grow their own social media — with you as the name behind it.

LAYER 3

The agency

Your own model & talent directory. Members list a profile; brands find and book them direct.

Why one app:

every layer sells the next. That's what turns a following into recurring revenue instead of a one-time payday.

THE ENGINE — THE BIT PEOPLE WILL TALK ABOUT

A model agency that **isn't a gatekeeper.**

A directory of models, creators and faces who want to be **part of your brand**. They build a profile — photos, video, location, rates. Brands, photographers, clubs and businesses browse it and **book them direct**. Your name is the trust badge on all of it.

A NORMAL AGENCY

- ✗ Takes 20–40% of everything you earn
- ✗ Locks you into long contracts
- ✗ Gatekeeps — most people never get seen
- ✗ No exposure, no audience behind it

SIGNED TO LIAM

- ✓ Low flat fee — they keep their money
- ✓ No contract, cancel anytime
- ✓ Open door — anyone with drive gets on
- ✓ Top talent featured to your ~900K

The recruitment engine: you post *"I'm looking for people who want to blow up on social — apply."* They join. The best get featured on your page. That single promise — exposure to your audience — is something no agency on earth can offer. It sells itself.

Not a gatekeeper. **A launchpad** — with your name on the door.

THE MONEY — HOW IT PAYS, ON REPEAT

Recurring revenue,
not one-off deals.

Four income lines, all running at once — and all set at prices **you** decide.

- 01

Membership subscriptions

Monthly tiers — from a low "insider" tier to a premium tier with direct chat and 1:1 access. The recurring base.
- 02

Directory listings

A small weekly or monthly fee to be on the roster and take direct bookings. Zero commission — that's the hook that fills it.
- 03

The brand / booker side

Businesses pay to search and book your talent pool — a ready-made army of faces they want. The strongest long-term line.
- 04

Upsells

Featured spots, verified badges, 1:1 time with you, done-for-you content, events. Pure margin on top.

Illustrative, and deliberately conservative:

500 members is well under 0.1% of your audience. Stack the directory, the brand side and upsells and the real number is a multiple of this — every month, whether you post or not.

WHY GROAI — AND THE DEAL

We build it bespoke.

We can fund it.

We don't rent you someone else's software. We build you **your own app** — you own the members, the data and the chat, you pay no platform's cut, and it's all in one place with our AI matching brands to talent behind the scenes. It's built and running, not theory.

YOU OWN IT

Bespoke, not rented

Your app, your brand, your audience. No Patreon or agency tax skimming 10–40% off the top.

OUR EDGE

AI does the work

Content ideas, matching bookers to talent, running the community — automated, so it barely needs your time.

THE DEAL

We build & fund it

The investment is ours. Revenue-share partnership — nothing for you to pay upfront.

YOUR ROLE

~1% of the work

You stay the face and the authenticity. We carry the cost, the build and the running of it.

In one line:

 we invest and build you a real, recurring-revenue business with your name on it — you barely have to touch it, and you earn from what it makes.
